Black Plastic Liner	R-DOM2005
---------------------	-----------

Material

The receptacle is made of 10-gauge steel body with radiused corners and a built-in bonnet top. Two opposite sides of receptacle body are made of 10-gauge steel and the other two opposite sides are .75" x 3.5" recycled plastic planks made of 95% recycled content by weight. The reusable plastic liner is made of high-density polyethylene.

Features

Meets federal ADA requirements.

The bonnet top has wide access openings over a large waste opening. The side door features a continuous geared hinge and comes standard with a tamper-resistant cam lock and key system.

Optional decals available are "Bottles/Cans", "Mixed Recycling" and "Paper" with recycling logo and "Trash"—custom decals also available. Specify black or white lettering. Decal placement will be on the top face of the receptacle body. **Decals will be factory installed and must be specified at the time of order.**

The receptacle is designed to be portable for flexibility in placement or surface mounted using .375" pre-drilled holes in the base to prevent movement. The rubber feet are adjustable to assist in leveling the receptacle. **Optional hold down kit is sold separately.**

Finish

The recycled plastic planks are impervious to moisture and corrosion, do not require the application of sealants or preservatives, and will never need painting or staining throughout the product's life.

Fade-resistant, powder coated steel features a state-of-the-art primer proven to prevent rusting. Treated components exceed the industry standard by 34% in testing by independent sources.

Assembly

This product ships fully assembled and ready-to-use. Leveling feet may require adjustment.

Color

See website or sales representative for color choices.

Maintenance

The product is virtually maintenance-free and requires only periodic cleaning with a sponge and a solution of mild detergent and water to remove surface dirt. Do not clean with solvent or petroleum base products.
