Greenwich
1-1/2" Pole
2" pole available in G-Series

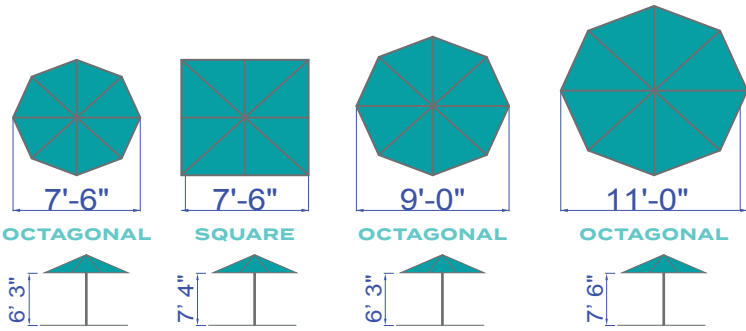

The Tropical J's Difference.

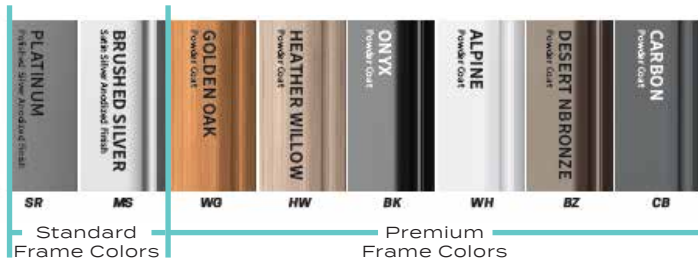

For over 30 years, Tropical J's has offered premium umbrellas that we manufacture and service locally. Due to the uplift that our Hawaiian winds generate, we manufacture our covers with a unique functioning wind vent that steadies the umbrella making it safer. **For more information, please visit our website at TropicalJs.com**

- Sunbrella available in 100+ colors
- Stock colors available locally

5. FINIAL

Stainless Steel Vertex

WIND VENT

Tropical J's has been perfecting effective umbrella wind vents, drawing from 30 years of experience with Hawaiian tradewinds. 6" straps are sewn into the main umbrella cover connecting the wind vent. This 6" allows the wind vent to lift and release air which helps to stabilize our umbrellas. Other covers usually sew the windvent directly to the cover, not allowing for adequate pressure release. It's not magic; it's Tropical J's!
